◆ Legal Victory

In March, Masha'el Al Sulaiti Law Firm achieved two **landmark victories in tax law**, reinforcing our reputation as a trusted partner for businesses navigating complex regulatory challenges.

Case 1

Protecting a Global Construction Company

Our client faced a **QAR 10 million** demand from the General Tax Authority (GTA) for the 2017 fiscal year, a combination of tax differences and penalties. With the initial objection rejected, the stakes were high, and the financial pressure was immense.

Our Strategy:

- Filed a grievance before the Tax Grievance Committee, winning partial relief (penalties cancelled).
- Escalated the case to the Appellate Administrative Circuit, submitting precise legal arguments and robust documentation.

The Victory:

- The court annulled the GTA decision completely.
- Confirmed that the GTA's right to assess taxes had expired under the five-year statute of limitations.
- Ordered the GTA to cover all costs.

This win safeguarded our client from severe financial strain and highlighted our team's ability to navigate complex disputes with strategic precision.

Case 2 Ensuring Fair Tax Treatment

A second client challenged the GTA's decision on tax differences and penalties for 2018 (QAR 137,728). We filed a Court of Appeal appeal, addressing procedural errors, contradictions with evidence, and violations of the right of defense.

Outcome:

- The court accepted the appeal fully, cancelling all contested charges.
- The GTA was ordered to pay legal costs.

Impact:

These victories exemplify Mashael Alsulaiti Law Firm's dedication to protecting businesses, ensuring justice, and delivering measurable results. Every case we handle reflects our commitment to excellence, strategic thinking, and client success.
